LEMON GROVE REVIEW

AND SUBURBANITE

California's Fastest Growing Community . . . 'Best Climate On Earth'

This is the only newspaper in the world that really gives a darn about this community.

VOL. 12 No. 2 | Three Sections—18 Pages | LEMON GROVE, CALIFORNIA | THURSDAY AUGUST 27, 1959 | 10¢ PER COPY

Eager acceptance of this newspaper by more and more subscribers has forced us to buy a new press. Here, our press crew works out some of the "bugs" in the equipment. New press will cut printing time, allow more concentration on readability. It already is in operation.

Newspaper 'Pressed' Into Change in Printing Method

Well, you forced us into it.

"You" are our readers and advertisers. "It" is the purchase of a new press on which to print this newspaper.

(Actually, with an eye on the economics of the thing, we bought a second hand press from another newspaper in another area. But we hope that you will pardon us if we refer to it as the "new" press.)

We bought the new press mostly because so many more people have been buying our newspaper that it has taken us an increasingly long time to print it on our "old" press. In fact, we have had to start a whole day ahead of time in order to get the paper to you each Thursday.

With the "new" press, we'll cut our printing time down by more than a whole day — and we'll be able to pass this time saving on to you readers and advertisers in the form of a more readable and lively newspaper.

We have, of course, been striving to bring you a lively and readable newspaper all along. And our efforts have shown results.

A recent survey conducted by an impartial, outside agency, showed that in the Lemon Grove area, more people consistently read the Lemon Grove Review than consistently read any other newspaper — including the "big" daily papers published elsewhere, and the weekly and semi-weekly papers from surrounding communities.

In fact, the survey showed that more people read the Lemon Grove Review than read all the other non-daily newspapers combined!

Our consistent readers know that this newspaper does its best to bring them the most complete coverage of LOCAL news that is possible. We on the news staff write about LOCAL people doing things in THIS community.

For instance, we checked a recent issue of this newspaper at random and we found that in our news columns FOR THAT ONE EDITION we mentioned the names of 263 local people; we showed the faces (or the back of the heads in one case) of 45 local people in news pictures; we helped people buy, sell or trade things or find jobs or find workers in 73 different classified advertisements in our want-ad columns; we published 9 legal advertisements; and 51 different merchants told about their wares in display advertising.

And in order to get this somewhat amazing LOCAL product to you in the form of your weekly newspaper, we (pardon the expression) struggled with our old press for a total of 15 hours of printing each week.

With the "new" press, we'll be able to do the same job in just ONE AND A HALF HOURS.

And how will you, the reader, benefit?

Well, we'll take that extra 13½ hours a week and use it to make this newspaper more attractive in design and appearance and to make this newspaper even more of a bargain for the price you pay.

The Dimmer View

by MAX GOODWIN

Frank G. Bonelli, chairman of the Los Angeles County Board of Supervisors, is sponsoring a proposal to reapportion the California State Senate.

If he is successful it will have a tremendous impact upon the southern counties and will give San Diego county three times the voice she now has in Sacramento. Los Angeles County will get five times as much.

Since you will be hearing about the senate reappointment program more and more, it seems appropriate that a light run-down of the proposition be given here and now.

The 58 counties of the state now employ 40 senators. This is done on a geographic basis. In the north, as many as three counties elect a single senator. Los Angeles and San Diego each elects one.

Bonelli establishes an imaginary line across the north limits of San Luis Obispo, Kern and San Bernardino counties. He says only 38 percent of the state's population lies above this line. It has 5,975,700 population (just a shade more than Los Angeles

Coordinating Council Sets Recreation District Boundary

'Early Election' Urged by Group Vice President

District to Include Western Section Of Spring Valley

The Lemon Grove Co-ordinating Council approved boundaries Tuesday night for a recreation district the group is sponsoring.

Boundaries were presented by Boundary Committtee Chairman Mel Grant, principal of Mt. Miguel High School. The boundaries are roughly from the city limit west of Lemon Grove to Helix Street in Spring Valley on the east. The north and south boundaries are the Lemon Grove freeway and Jamacha Road.

Proposed boundaries will be mapped and a legal description acquired as soon as possible. The material will be sumitted to the County Boundary Commission for approval. Estimated cost of the map-making is less than $50.

Jim Spears, presiding officer in the absence of the Rev. E. Walter Smith who is vacationing, said the district-forming process "must move rapidly toward a December election" if the district is to be formed in time to be eligible for 1960-61 funds. The district must pass a successful election and be certified to Sacramento by February 1, he explained.

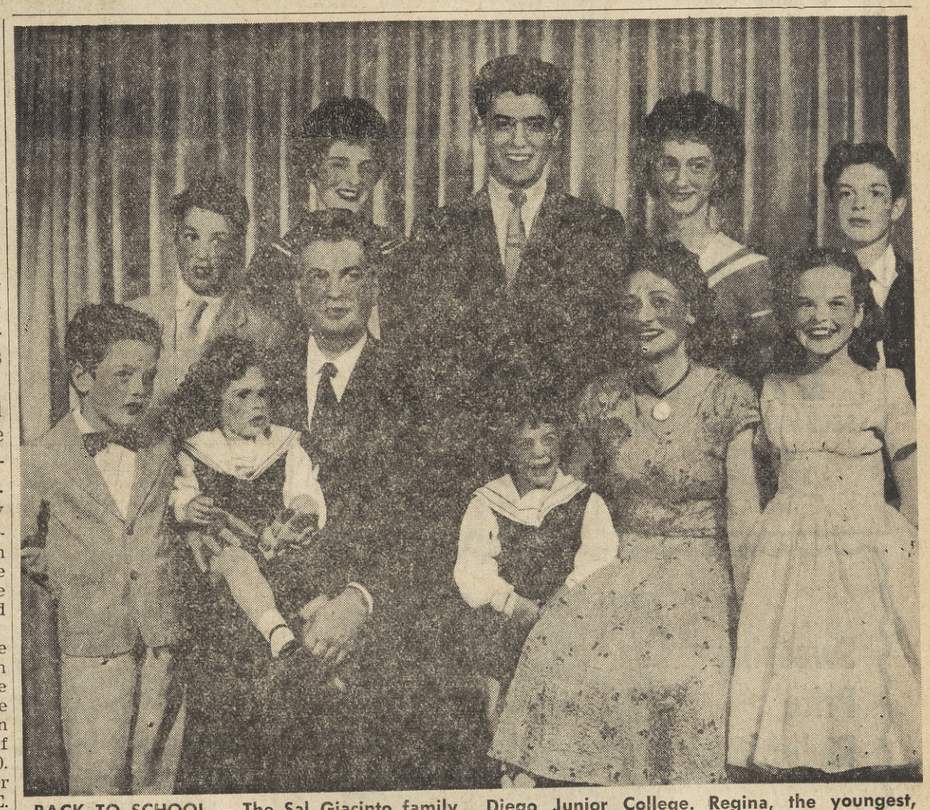

The steps that must be taken prior to the election are these, he declared: after the boundaries are approved by the County Boundary Commission, petitions for formation are circulated among voters. The petitions then are filed with the Board of Supervisors. The supervisors call public hearings after which an election is set.

The supervisors pay all expenses except the map-making and the cost of circulating petitions.

Grant said the area had not been allocated funds because "no definite governmental lines had been established by which money for recreation could be returned to this community."

Spears said the governing body of the recreation disrtict would be the voice of the community for its recreation needs.

The boundary commission is comprised of Dr. Robert Burns, Emmett Marshall, Dr. Lloyd Adams, Mrs. Betty Welbaum, Carmen Ursillo and Grant, chairman.

BACK TO SCHOOL — The Sal Giacinto family, recent arrival in Lemon Grove from Detroit, expects to make quite an impression on the local schools system when September arrives. Seven of the nine Giacinto children will attend local schools. Mark, the oldest, expects to attend San Diego Junior College. Regina, the youngest, doesn't expect to attend any school. Shown from left, back row, are Tom, 11; Rosemarie, 16; Mark, 18; Judy, 15; George, 14; front row, Sal Jr., 7; Regina, 3; Sal, the father; Anne, 5; Mary (mom); and Maryterese, 12.

Man Says Schools Built 'Mountain' Near His Window

A Lemon Grove man who went away on vacation and came back to find a "mountain" ouside his living room window is threatening to sue the local school district.

George E. Schnell, 8248 Mt. Vernon St., said that he and his wife went east on a vacation and that while they were gone a contractor began grading the adjacent property, building a playground for the new Mt. Vernon School.

When the Schnells returned, the grading had resulted in a bank of earth nearly as high as their house, and only half a dozen feet outside their living room window.

Schnell said that he had protested to the contractor, who dispatched a man with a shovel to uncover Schnell's rose bushes which were growing along the property line.

But that didn't pacify Schnell. He said that he sent a registered letter of protest to the school board, complaining that his view had been shut off, that the bank of earth could slide over onto his house, and that a 15-foot easement alongside his property had been buried under the bank of earth, depriving him of access.

Byron Netzley, superintendent of Lemon Grove schools, said

San Diegan Named To Replace Dail In Betts' Office

Bert A. Betts, State treasurer, has appointed Richard C. Munden of San Diego to replace John B. Dail of Lemon Grove as deputy state treasurer.

Dail announced two weeks ago that he was resigning his $13,800-a-year post to return to his insurance business in Lemon Grove. He said also that he may run for the position of county supervisor in the next election.

Betts, Lemon Grove accountant, in accepting Dail's resignation expressed his regrets and thanked Dail for a "job well done."

Munden, the new deputy, is a certified public accountant in San Diego. He is a former business associate of Betts.

WOMAN TO WORK FOR PROTECTIVE ASSN.

The Lemon Grove Chamber of Commerce has hired Mrs. Grace Gray to solicit memberships in the Merchants Protective Assn., according to Jesse Lee, chamber manager. The chamber administers the protective program, Lee said, and pays two thirds of the salary of a night patrolman. The sheriff's office, he said, pays the other third of the man's salary.

Engineer Cites History In Predicting Future

Ralph Luckenbach, assistant district engineer for the State Division of Highways, reached back into history Friday to emphasise a prediction of the future.

The engineer, speaking before the Lemon Grove Men's Club, recalled that even progressive civic leaders in Lemon Grove fifteen years ago protested against having the state tear out part of an orchard to permit Broadway (then part of Highway 94) to be projected eastward across the railroad tracks.

"We were called 'dreamers' when we asked for a right of way 150 feet wide," he said. "We got 80 feet. And now, with the growth that has come to the area, you could use a street 200 feet wide on through Lemon Grove."

Using this example, Luckenbach predicted that as the Lemon Grove-Spring Valley area continues to grow, the congestion on such central streets as Broadway in Lemon Grove and Campo Road in Spring Valley will increase "all out of proportion to the percentage of increase in population."

"It's the streets in the center of an area which carry the brunt of the increase out on the fringes," he said.

The engineer sketched briefly the state's plans for the projection of Freeway 94 through Spring Valley and said that the state will resurface the existing highway from the cloverleaf southeastward to Bancroft Drive and will widen it in other places.

He said that property owners in Casa de Oro have set up an improvement district and will install curbs and sidewalks there, and that the state "probably will surface the highway up to the curbs."

He discussed briefly the plans for the new freeway through the valley, and said that construction is expected to begin in "about five years."

Mayor Karl Tuttle of El Cajon is scheduled to address the Men's Club next Friday.

DENIAL UPHELD

SAN DIEGO (CNS) — The denial of a street vacation in the La Presa area, asked by Fred Hansen, was voted Tuesday by the County Board of Supervisors, upholding the County Planning Commission.

Hearing Scheduled On Two Signs For Subdivision

SAN DIEGO (CNS) — A public hearing on a plea for two signs to advertise a Lemon Grove subdivision is slated to be held Friday morning before the County Planning Commission.

The Hale Co., with headquarters in Anaheim, is asking for permission to put up signs for the second unit of Larwood Park. The applications show the advertising is for Halecrest Heights, located in the Imperial and Angelus avenues area.

Another Lemon Grove hearing is on the request of a use permit for an addition to the fire station of the Lemon Grove Local Fire District, at School Lane and Lincoln Street.

Cost of the addition is in the 1959-60 budget, with Arthur Decker of El Cajon as the architect, the application states.

It's His Turn Now

Marlin Fisherman Almost Successful

When it comes to marlin fishing, Wiliam L. (Bill) MacQueen of Lemon Grove is right in there with the best of them.

The only trouble is, he hasn't caught one of the powerful finny monsters.

"I had one so close last week, though." he said " that I had mentally cut it up and passed it around to my friends."

MacQueen, fishing with Harry Griffen, hooked a marlin in the San Diego area waters and battled him for one hour and 55 minutes. The fish fought all the way up to the boat.

"We almost had him," MacQueen said. "I got him in so close that we had hold of the leader, and then he dived under the rudder and cut the line."

Just so nobody will think that he is completely without luck, MacQueen admits that he did land a marlin in these waters about five years ago and has landed two others off Mazatlan, Mex., in the meantime.

Last week, he put on a pair of heavy gloves and hauled a marlin aboard by its sword after Walter Shimp played it up to the boat.

"I'll be back out there again this week," he said. "It's my turn."

Grove Schools Must Pay Valley Sewer Assessment

SAN DIEGO (CNS) — Assessments for construction of a sewer system in the Mt. Vernon street area of Lemon Grove have been approved by the County Board of Supervisors.

Paul Reynolds, representing the Lemon Grove School District, said school officials were interested in knowing if the district could avoid paying the $3,700 assessment it faces. No answer was given except that Supervisor David W. Bird said the school district has a problem because it is in two sanitation districts.

The school being built on Mt. Vernon street is in the Lemon Grove district, it was brought out, but the sewer connection is in the Spring Valley district.

Warren Barney, department of public works engineer, said there are 25 assessment parcels in the district, that assessments are $5.65 per front foot and the total of assessments is $11,321.

County alone). The north, comprising about 2/3 of the state's area now has 30 of the state's 40 senators. Ten remaining senators, he points out, represents 62 percent, or 8,776,300 people. This, he charges gives the north, or "cow counties" as he calls them, a tremendous advantage in Sacramento.

Bonelli would reapportion the districts so that there would be 20 on each side of the Bonelli north-south line. His formula provides that:

1.) No county shall have more than five senators.

2.) No county or group of counties with a population totaling less than 250,000 shall have more than one senator.

3.) County or group having 250,000 to 900,000 population shall have not more than two senators.

4.) Single counties with 900,000 population shall have three or more senators.

He then provides for three senators for San Diego, five for Los Angeles, two each for Orange, San Bernardino, Kern and Riverside and the rest of the southern counties, one.

As you know, representatives to the assembly are apportioned on the basis of population. This gives populous areas like Los Angeles a pretty good whip in the lower house but the so-called "cow counties" with disproportionate power can kill their legislation. (Example: Los Angeles, with more than one third of the population of the state has only one senatorial vote out of 40).

A case in point was assembly Bill 487, a crucial "possessory interest" tax measure that was killed off in a "high-handed" manner by the Senate Committee on Revenue and Taxation.

It spelled out the rights of local government to levy taxes on federally-owned equipment and inventories in defense plants. In Los Angeles it would have produced upwards of $7 millions to county government plus additional millions to schools, cities and counties in urban areas throughout the state.

As a matter of history, the present organization of the upper house dates back to 1928 when Californians voted 692,347 to 570,120 in favor of the "federal" plan. This set the number of senators at 40 and restricted individual counties to a maximum of one senator and restricted no more than three counties to a single senatorial district.

According to the sponsors, this permits the areas with less population to dominate the senate . . . and gives these counties control over bills designed for the benefit of the more populous parts of the state.

While Bonelli's bill will not give a 50-50 shake to the southern counties, it will give the ten south counties with 68 percent of the population an equail voice agains 30 counies of the north with less than 32 percent of the people.

—o—

If you had the authority, would you bring Russian Premier Nikita Krushchev to Lemon Grove or Spring Valley?

If you decided that such a visit would serve any purpose, what would you talk to him about?

Could you show him something here, or anywhere else in this nation, for that matter, that you think would deter him from the apparent road to war?

Quite frankly, do you believe you could give him any information that is not already minutely described for him by his espionage corps?

For those who hail the coming of Krushchev as the greatest thing since store-baked bread, they will have ample opportunity to make their point. The point apparently being that Mr. K. will see our happy, free people (we may soon have legislation to free the people of dishonesty in unions) in our teeming cities and on our productive farms (farm production is controlled by quotas. Surpluses are bought with tax money and much of the surpluses go to waste). He also will see our factories (except the steel plants which are down on strike) which are capable of producing parcels for peace or hardware for war. Having seen all of this Mr. K. will be brought to time on world issues.

We think not. We believe Khrushchev's visit here will be one of the greatest diplomatic victories ever dreamed up for world communism. Every action Khrushchev has taken up to now has been on the point of power. Nowhere has he indicated a sensitivity of nature by which the wail of a child in a Siberian mining camp or the stifled sobs of families of murdered Polish officers would sway Mr. K. from his course of world domination for Communism.

Mr. K. will be able to point to his visit here as American acceptance of communism as an equal world force. This propaganda can replace his unfilled promises in some of the lands of the globe.

The President obviously believes that no stone should be left unturned in his ceaseless search for the path to peace. We can only believe that he sees the task in as frustrating a light as we do. We hope some good comes of the visit.

—o—

Like many another American of the Republican persuasion, (and there doesn't seem to be as many of us in California as there were a couple of elections ago), we thought Vice President Richard Nixon did a masterful job of rocking USSR Premier Nikita Khruschev back on his heels each time the met recently in Russia.

On that performance alone, I would give Dick a good head start in the upcoming GOP presidential choice decision.

But the old pro, Nelson Rockefeller, all but cancelled Nixon's advantage by giving gracious blessings to the poor girl-rich boy marriage of his son Steven, and the attractive former Rockefeller housemaid, the former Anne Marie Rasmussen.

No soap-opera set of circumstances holds the American public enthralled as does the dissimilar social backgrounds of two young people in love. But Act Two always has the rich boy's parents violently objecting to the union.

It must have been a comforting feeling for millions of Americans to hear the boy's parents give the unrestrained blessing.

No one is going to accuse "the Rock' of engineering the engagement of his son for the benefit of the vote . . . but his political popularity wasn't hurt a bit by the turn of events.

Baton Twirler Wins and Wins And Wins

When Patty Corle enters a baton-twirlig contest, she really enters it — and she wins.

The 11-year-old Lemon Grove miss entered the San Diego County twirling championships at Presidio Community Center last weekend and:

1) Won the open division for girls aged 9 or 10;

2) Won the junior strutting specialty division;

3) Placed third in the open twin-baton division;

4) Won the flag twirling division;

5) Won the junior interpretive division;

6) Won the championship perpetual trophy;

7) Won the championship high point trophy.

Dena Anderson of Lemon Grove won the senior interpretive division and her sister Darlene placed sixth. Dena also placed second in the flag division.

Mrs. D. E. Corle, 7028 Barton Drive, Lemon Grove, was contest chairman. Rod White of Glendale and Charles Scott of Santa Monica were the judges.

Man Says Schools Built 'Mountain' Near His Window

that Schnell "has all my sympathy."

He added that he hadn't realized that the bank would be as high as it turned out to be as the contractor leveled the land.

"But," he said, "we have to level it up. The people who sold the property to Mr. Schnell may have told him that there was a 15-foot easement alongside it, but our title insurance policy shows that we own the property right up to the edge of Mr. Schnell's property. The policy doesn't mention any easement."

Netzley said that he had not received any official word from Schnell in protest against the situation, although he had talked with him about it. He said that the school board would have to take action in the matter, if any action is taken.

"As I see it," he said, "the only question is whether or not the school district is liable for cutting off Mr. Schnell's view.

"I'm sympathetic. If I were Mr. Schnell I'd be sore too."

He added that the dirt bank is on school property and said that the engineers had sloped it so that there is no danger of it sliding onto the Schnell property —although it might be "advisable" to plant something on the slope to keep it in place.

Scout News

Thirteen Explorers from Post 354, Casa de Oro, August 9, left the camp at Sequoia National Park for a week's trip into the High Sierras. They motored by car as far as Cedar Grove in Kings Canyon National Park and that is where the hike actually started.

From an elevation of about 4,500 feet they climbed by easy stages of four to seven miles a day, camping at night along the trail. They carried their food, bed rolls, change of clothing, toilet gear, cooking gear, etc, in pack racks strapped to their backs. Each pack averaged about 35 pounds. Dehydrated foods were used on the entire trip.

At the highest elevation of about 12,000 feet they crossed into the Rae Lake area where they camped two days. There, due to the high elevation, an extra day was taken for recreation. They fished, swam in the cold lake, built a raft and enjoyed themselves thoroughly.

Ed Pye, local Scout leader, shot about 400 feet of movie film. Ed Gurling, post advisor, took many still pictures of the area, as did many of the boys. "Sour Dough" Tingle, Post 354 committeeman, also accompanied the boys. All reported much beautiful country.

After the layover period, the return trip got under way. A minor rock avalanche was observed in a steep walled canyon. The last half of the trip was mostly down hill and they made good time. They arrived back at the starting camp tired, soiled and hungry. They were all happy to get some "regular" food again. They figured they had covered about 50 miles on the hike.

Camping at the "Lodge Pole" were the George Caldwell, the William Tingle and the Ed Gurling families.

Explorers who made the hike were Jim Caldwell, Donald Preston, Mike Maehler, "Putter" Maehler, Corky Uri, Spike Uri, Carl Johnson, Hugh Saddington, Martin Harrison, Brent Harrison, Ray Spaith, Bill Pye, Mike Gurling, Gary Gurling and Micky Tingle.

Herb Preston and wife came up on the final weekend to help transport the boys home. Other families arriving to pick up boys were the Mel Harrison, the Emil Johnson and the A. W. Saddington families.

Grove Couple To Get Hearing On Zone Change

SAN DIEGO (CNS) — Public hearings on a zone change to aid a Lemon Grove property owner who reportedly was injured in the zone plan adopted for the area last year are being instituted by the County Board of Supervisors.

The Board Tuesday took its action on the recommendation of Supervisor David W. Bird.

The property affected is that of Dr. and Mrs. Gilbert Chassy, which was zoned C-1 before the Lemon Grove zoning plan, but latter type zoning required that latter type zoning requirer that half the area be reserved for parking and that all goods for sale be indoors.

Mrs. Chassy wrote to Bird that the C zoning had cut the value of their property. Bird said he knew that other land in the area had C-1 zoning, or C-1 operations were being carried on on land given the same zoning as the Chassy property.

Supervisors ordered the County Planning Commission to start the proceedings leading to a public hearing on restoration of C-1 zoning to the Chassy property.

Burglar Takes Guns From Sports Store

A burglar chopped a hole in the roof of the Lemon Grove Sportings Goods store this week and stole two pistols and some ammunition.

Arthur W. Berry, owner of the store, said that a quantity of ammunition for other guns was taken from a shelf, but was left on the roof.

Many other guns in the store were not touched.

Square Dance News . . .

COUNTRY COUSINS

The Country Cousins Fiesta Dance was a huge success. We had a large turnout of members as well as guests representing numerous clubs.. Everyone had a good time dancing to the calls of Ray Columbe, who did an excellent job.

We also were honored by the presence of the Heartland Federation president, Tommy Heinz, and his charming wife.

Dates to remember are Sept. 12, our third anniversary dance, and Sept. 14, when our beginners' class starts at the La Mesa Junior High School. No dancing Saturday, August 29.

—o—

PROMENADERS

Party night was held Wednesday of this week in the Spring Valley Chamber of Commerce hall. A good crowd turned out.

Irl Kaupp, a charter member of the Promenaders Square Dance club, was feted on his birthday, August 19, on the Promenaders' regular dance night. On that night Frank Dyson was club caller, and guest callers were Al Rider and Dell Lake, Hosts and hostesses were Roger and Lea Bresnaham, and Jack and Evelyn Ball.

—o—

JUNIORS

The Junior Levis and Laces held a thank you party recently for Slim and Doris McInroe and Dixie and Bob Jump. Slim was a temporary caller for Juan Frank, who had to undergo heart surgery. Juan is well again and will continue calling.

—o—

FRONTIER SQUARES

Frontier Squares dance on the second and fourth Saturday nights of each month at Spring Valley Junior High School, on Conrad Street off Campo Road. The club invites square dancers to come out and enjoy dancing to the "crystal clear" callin' of "Wild" Bill Keller.

Frontier Squares is a member of the Heartland Federation. The Federation holds its dances on the fifth Saturday. August 29 will be the next scheduled Heartland dance and Frontier Squares is one of the "hosting" clubs for the evening. This dance is a great get-together of various clubs.

The "big event" for Frontier Squares is their "Presidents' Ball" scheduled for September 26. This will be an elegant supper dance and admission will be by reservation. It is suggested you call now for your reservations: CO 4-1483 or CO 4-4963.

School Teachers To Sit With Chamber Directors

The Lemon Grove Chamber of Commerce board of directors will be host to 19 teachers of Mt. Miguel High School, it was announced this week by Jesse Lee, chamber manager.

The meeting will be at noon September 3 at El Morocco Restaurant.

Lee said the get-together will give the newcomers a picture of the make-up of the community they have chosen.

At least one service club annually invites elementary school teachers as guests. The Kiwanis Club will do so this year.

Joseph H. Fernald Dies of Stroke

Joseph H. Fernald, 78, of 7030 San Miguel Avenue, Lemon Grove, died Thursday of last week at the Hacienda Convalescent Home in La Mesa following a stroke.

He was a retired electrician and had lived in the San Diego area since 1909. He was a Scottish Rite Mason of a Los Angeles lodge. He also was a member of the Odd Fellow Lodge of San Diego.

He is survived by his wife Alice; two sons, Joseph A. of Lemon Grove and Clifford of Boulder, Colo.; seven grandchildren and a great-grandchild.

Services were held Monday under the auspices of Lemon Grove Masonic Lodge followed by interment at Greenwood Memorial Park.

God's Minute

"PRAY IN JESUS' NAME"

According to the teaching of Jesus, no one can approach the throne of God in his own name or on the basis of his own merits. Jesus Christ is our Mediator and Advocate at God's right hand and our approach must be in His name and on His merits.

LET US ALL PRAY TOGETHER AS A FAMILY

There are not many places in life where a child can have a leisurely relationship with a splendid Christian adult. The world of a child is apt to be far removed from the busy world of grown people, and yet every child is poor who does not have adults who take the time to be real friends.

Spring Valley Pupils Can Register Now

Children Not in School Last Year Must Register

Registration dates have been announced for new students of the La Mesa-Spring Valley School District by Assistant Superintendent Dr. David D. Pascoe.

Children who attended local schools last June are not required to register again, Dr. Pascoe said. All other chidren must be registered by their parents.

Registration of kindergarteners through sixth graders will be held at all elementary schools from 8 a.m. until noon and 1 p.m. to 4 p.m., through Friday of this week. In order for children to be properly placed in classes, it is urgent that registration of new students be accomplished by Aug. 28, Dr. Pascoe said.

Registration of seventh and eighth graders at Spring Valley Junior High will be from 8:30 a.m. to noon and 1 p.m. to 3 p.m., Sept 1. All new students at the school will be tested in mathematics and reading at 1 p.m. Sept 2, in the school auditorium.

Parents of first grade or kindergarten-age pupils were advised to bring birth certificates, baptismal records, or other official documents indicating date of birth when they come for registration. Under California law a child must be five years of age on or before Dec. 2 to be eligible to enter kindergarten or be six years of age by the same date to enter first grade. Proof of age is required.

Schools in Spring Valley inlcude:

Avondale Elementary, 8401 Stansbury St. (temporary ofice at Bancroft School, HO 3--1303); Bancroft Elementary, 8805 Tyler St., Spring Valley, HO 9-7868; Casa de Oro Elementary, Agua Dulce and Romana, HO 6-9135; Spring Valley Elementary, 3845 Spring St., HO 6-8307; Spring Valley Junior High, 3900 Conrad Dr., HO 9-0141.

Principal G. Keith Dolan of Spring Valley Junior High School said entering seventh graders will meet for a "get acquainted" program from 1 to 4 p.m. September 4.

School buses will run a regular schedule both days, Dr. Pascoe said. To avoid missing buses, students were urged to be at bus stops one-half hour before the program is to start at their school.

The program is designed to acquaint new students with school facilities, schedules and teachers, Dr. Pascoe said.

The "Get Acquainted Day" will begin at each school with an assembly during which the principals, teachers and student body officers will be introduced. Later a regular day's schedules will be followed through, with class periods lasting just a few minutes.

Regular classes start Sept. 10.

In general bus stops will be the same used by junior high pupils last year. Dr. Pascoes said. Full bus schedules will be announced later, he said, including schedules for students living in the Spring Valley Estates area.

He also explained that regulations prohibit school buses from making stops for junior high age pupils unless they live at least a mile and a half from the school grounds. Seventh graders who wish to walk or ride bikes may do so, he said, or they also may be transported in family cars.

Talent Finalists To Play for Dance

The Del-Fi's band, finalists in the recent Talent Show sponsored by the Mt. Miguel Boosters Club, will play for a "Back To School" dance in the Mt. Miguel High School Quad on Friday, September 4, from 8 to 11:30 p.m.

Admission to the dance will be 50 cents per person.

- **DRIVERS! DON'T HURRY** when you drive! We may as well face it! We cannot reduce traffic casualties unless we slow down! The lives of others are in the hands holding your steering wheel. The minute you may save, isn't worth the life of a schoolchild!
- **HAVE YOUR CAR CHECKED** by an expert! Any car that is not in perfect mechanical condition is a potential murder weapon! The few dollars you spend may save a life!
- **PULL OFF THE ROAD** when you're tired, and take a nap! DON'T DRIVE at all when you've had a drink! Drowsiness and drinking are responsible for most fatal accidents.
- **DRIVE EXTRA CAREFULLY** around shools and playgrounds! Be on the lookout for children when they walk to and from school! Your vacation from school children is over now!
- **BE ON THE ALERT** when you are near a schoolbus. Of course, they have to obey all traffic rules! But, give schoolbusses a break anyway . . . they carry a priceless cargo!
- **PARENTS NEVER STOP TELLING** children about the many traffic dangers! Only then can we hope to help reduce traffic fatilities! One out of seven fatalities involves a schoolchild! One out of ten fatal accidents is caused by a teenage driver!

Grove Schools Registration Open to Sept. 10

Parents Advised to Have Proof of Children's Age

Registration is open for new pupils in Lemon Grove Schools.

School officials said this week that the secretaries are back in the offices of all district schools and will register any pupil whose parents bring him (or her) in.

Registration will continue until the first day of school, Thursday, Sept. 10.

Children who attended local schools last June are not required to register again. All other children must be registered by their parents.

Registration for kindergarteners through sixth graders will be held at the elementary schools. Seventh and eighth graders will be registered at the junior high school, 7866 Lincoln.

Parents of first grade or kindergarten-age pupils were advised to bring birth certificates, baptismal records, or other official documents indicating date of birth when they come for registration. Under California law, a child must be five years of age on or before Dec. 2 to be eligible to enter kindergarten or be six years of age by the same date to enter first grade. Proof of age is required.

Elementary schools in the Lemon Grove district are Golden Avenue School, 7885 Golden Ave.; Monterey Heights School, 7550 Canton Drive; Palm Avenue School, 8425 Palm Ave.; San Altos School, 1750 Madera St.; San Miguel School, 7059 San Miguel Ave, and Vista La Mesa School, 7101 Pearson St.

Schools officials said that there will be no special reading or arithmetic tests given to new pupils in the junior high school.

Registration of Lemon Grove pupils will be open during normal business hours at the schools: 8:30 a.m. to 4 p.m., except for the noon hour, from 12 to 1.

All parents were urged to register their children as early as possible, to avoid having to wait in line as the date for school opening nears.

Two Catholic Schools to Open In Two-City Area

Beginning with this fall term, there will be two Catholic elementary schools in the Lemon Grove-Spring Valley area.

To open for the first time on September 14 will be the Santa Sophia School at 9800 San Juan St. in Casa de Oro. Fr. John J. Verhoeven said that registration already is open, with 140 to 150 pupils expected to attend.

Santa Sophia will have classes ranging from kindergarten through the sixth grade.

In Lemon Grove, St. John of the Cross School, 8175 Imperial Ave., will open on September 12. Registration will be open September 7 and 8 for classes ranging from first grade through eighth grade.

Lemon Grove Student In Guadalajara On Science Scholarship

Harvey Good, graduate of Helix High Schol and now a senior at La Verne College, has been granted a $600 scholarship from the college, allotted by the National Science Foundation.

He is the son of Mr. and Mrs. Jacob B. Good, 1906 Englewood Drive, Lemon Grove.

In connection with the scholarship, Harvey is in Guadalajara, Mex., obtaining plant specimens for research.

☆ Shades of brown ranging from the lighter tones of vanilla, nougat and champagne to deeper tobacco, copper penny and vicuna are important fall colors.

Newest Knits Find Favor With the Boys

The casual knit shirt long preferred by well-dressed males is soaring to new heights of popularity!

For sports wear or class wear, the new knits are a distinct improvement in looks and wearability over the knits of seasons back.

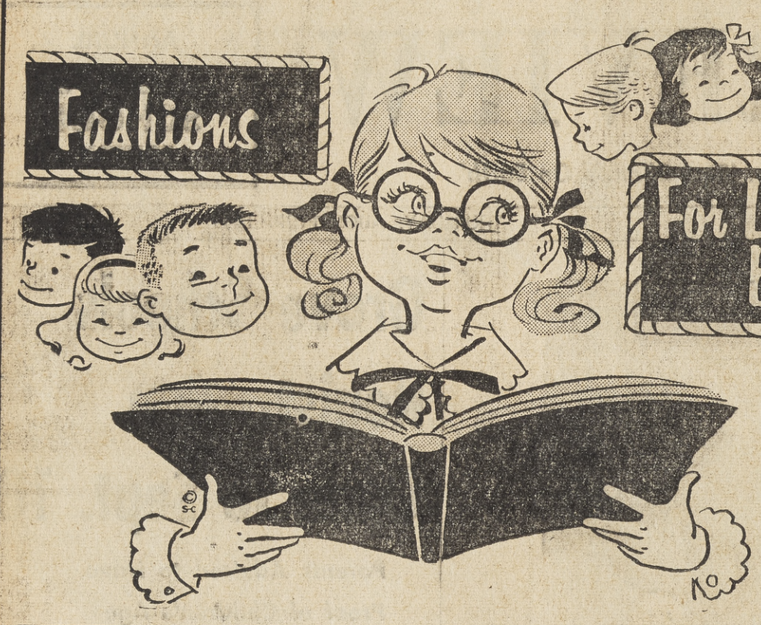

New fibers and new blends are used in tricky or bulky knits that can double as a sweater. Continental detailing is found everywhere.

Above all, patterns are back, largely replacing yesterday's solid colors. The patterns may be printed or knitted right into the weave.

The newest details to look for are shawl collars, new yoke and collar treatments, and more one-piece collars.

Miracle fibers that wear well and need a minimum of care, are favored. In this class the combination of Orlon and Arnel makes a soft, warm blend that adapts wonderfully well to knit shirts.

The demand for short sleeve knit shirts continues to grow; this type of shirt, long only a summer item, is now worn all year 'round.

Open Fridays 'til 9:00 p.m.

FOR SMALL SCHOLARS this two-tone dress is a detachable style. High-lighting its silhouette is a wide lace-like band with contrasting venise beading that circles the waist. And it's so easy-care, in crisp textured fabric, combining acetate and cotton that sheds wrinkles easily.

Gay Young Things Shown For Gay, Young Misses

As co-eds, teens and 'tweens go back to school, they often are the trend-setters and style pacers for coming fall fashions for their moms and older sisters.

Highlighting back - to - books fashion themes are some "way-out" variations on popular sportswear and classic fashions.

With an eye to comfort and color, solid color blazers top patterned pants and skirts — and vice versa; — loose-at-the-waist jumper tops give a one-piece look to their slim skirt partners; — belted corduroy shirts in deep-tone hues are casual ann smart; bright plaid pleated skirts over solid color tights give nomenclature to the "skight" costume.

Also new are plaids on camel grounds — soft and yummy looking in separates.

Colors are off-beat stressing "muggy" greens, shaded browns, and muted brasses. Reds turn to the winey tones. And, everywhere, white, off-white, spicy vanillas — stand out in bold relief to their darker-color cousins.

And as for sweaters — wow — what excitement!

Soft brushed surfaces are everywhere — they're soft to the touch, rich-looking to the eye and smart additions to every gal's wardrobe.

Then too, there's interest in the bulk of sweaters. There's a "big needle" knitted look to most casuals and even to the more dressy styles.

There's a handsome convertible newness to many sweater styles — in collars that go from "turtle neck" to flat wings; to sweaters that look equally smart, buttoned in the front or in the back, and in deep cowl collars that stretch up to warm hoods.

All in all, it's a gay 'n' exciting fashion season for the very young, the young and the young in heart.

Glowing Colors Ideally Mated To Rich Fabrics

It doesn't take a magnifying glass this fall to see that colors are wisely chosen and handsome to see . . . and most omportant in the man's apparel picture!

In men's wool suits, it's brown and more brown! Brown and black stripes team up as do blue and black.

Sports jackets go green . . . muted and olive predominately. Shetland and wool tweeds demand it! Here in wool flannel, navy gets the nod, plain or combining with maroon in stripes.

Wool hopsacking sports coats select casual gray, brown and blue. Honey, in all-wool, is newer than new.

Black and white bold herringbone patterns in wool warm up to suburban coats.

LEATHER IS BETTER for shoes that must last, for handbags that are sure to be used a lot. And here are five of the prettiest examples for little girls. Top to bottom, Mary Jane pump with contrast trim at throat; two-strap sturdy play shoe highlighted wth saddle stitching; and a semi-wedge dress-up pump of calf with kid trim. Handbags of saddle leather, cowhide.

Male Teens Give Eye To Continental, But Favor Ivy Styling

The need for acceptance is important in the minds of school-going boys!

And a proper back-to-school wardrobe will help a lad obtain confidence in himself so that he can feel acceptance.

The Wool Bureau recommends that careful attention be paid to outfitting the young high schooler.

The first day back provides Junior with an opportunity to show off his new "Continental" suit of all-wool which is styled just like his big brother's. Junior's Continental is proportioned to his psysique, yet retains the same details found in suits for the college man.

Because many young boys are self-conscious of their appearance, the wool worsted jacket has some shoulder padding to make him appear taller and more broad shouldered.

Jacket is shaped, too, and in keeping with the authentic Continental look, it sports two—not three — buttons. Pockets come slanted, have lapped seams, no flaps. And of course, deep side vents provide a true Continental flavor.

One thing more: matching trousers on the Continental come with side tabs. Don't worry about how they stay up, they do! And last but not least — have them altered without cuffs. Cuffs on trousers are a thing of the past!

Harold Dessler, stylist for the Wool Bureau, has scouted prep shops all over the country and reports that the fall '59's important colors in fine wool worsted suits are in the brown family.

For school, weekend dates, movie - going, partying, high school boys will look their best in the new "burnished" tones, and in subdued tones of olive green, dark grey, brown.

Wool takes to these dyes like a duck to water. In tailoring, too only wool gives an authentic Continental impression.

Check into class in a checked pattern or a neat subdued plaid. Stripes aren't as popular as they have been in the past.

About the easiest wearing fabric is wool hopsacking. Hopsacking got its name from the weave used in sackings used to gather hops in Scotland. It's an open basket-weave.

Wool hopsacking is a wonderful, sturdy, shape holding fabric for active young lads.

The natural shoulder which has been tagged the "Ivy suit" has not lost ground to the incoming Continental!

Young men from 14 to 17 will find a host of Ivy-style suits in the same burnished tones as in the Continental: in wool hopsacking, wool chevoit and worsted flannels — fabrics that hold their press and tailor to perfection.

Good tailoring is important; it makes a suit last longer, and better tailoring is usually found in suits made of all-wool fabrics.

Here's good news for budget minded families! A new process has been added to all-wool sports slacks. Called "Si-Ro-Set," it is a permanent crease treatment that gives many hours of extra wear to every active boy's wool slack wardrobe. It is often called a "perma crease." Mothers, look for this label if you want extra wear from your boy's slacks.

SMART DRESS . . . and it knows how to stay that way. "Everglaze minicare" cotton is the reason. Smart little girls love its lace-edged bib-front, black bow waist-accent . . . new sleeves, too!

Cal. Extension Registration Open

Registration and enrollment have now started for the University of California Extension fall semester in San Diego, it was announced today by C. A. Lewis, extension director.

Lewis said that a full staff will be on hand at the Extension office, 1221 Fourth Ave., from now until Sept. 22, when the semester begins, to take registrations for classes and to help prospective students in planning courses of study.

ENSEMBLES ARE NEWSY

Friday "Get-Away" outfits for men are heading toward the top-favored spot . . . destined to reach there this fall! Most popular are sports coats in very muted ombre stripes . . . with some featuring warm orange tones ith brown. Trousers pick up one of the wool jacket's colors.

Boosters Club To Fete Coaches At Patio Party

The Mt. Miguel Boosters Club Executive Board will hold an informal Mexican dinner at the home of Mr. and Mrs. Ted Arrington on Friday, September 11 to welcome the coaches back to school.

All the men and their wives affiliated with the athletic department and the women's physical education department will be the honored guests for the evening.

The group will dance to stereophonic music which Arrington has piped onto his patio and Thomas Welbaum, athletic director, will introduce his new assistants to the group. (Harry Johnston, varsity backfield coach who comes to Mt. Miguel from Vista; George Benson, a recent graduate of Redlands University, who will assist Hal Crow as frosh coach; Dick McMinn, recent UCLA graduate who will assist Walt Gehrke, J.V. coach.)

SCHOOL NOTES, written for young collegians, stress slacks topped with a new four-button wool flannel blazer — for the smartest look. Coat has muted black stripe. Tropical worsted slacks forever hold its press, rain or shine.

CLOTHES CONSCIOUS COEDS choose this Corduroy classic for the necessary rain 'n' shine coat. This double-breasted, shawl-collared shortie is lined with soft alpaca for warmth.

Girls' Shoes Point Up Rich Color, Texture and Style News

The young desk set's footwear for fall runs a gay gamut of styles to suit every young fancy. Leathers are lighter, colors carefree!

For the Little Girl there's a great variety of sleek pump styles in soft, colorful leathers detailed with swivel straps, T-straps, soft crushed bows at the vamp and delicate cut-outs — just what she wants to wear with her pretty party dresses.

For classroom wear, more closed styles in smooth leathers or buffed leathers are accented with eyelet ties, laced vamps and instep straps to give needed support to active feet.

For the Pre-Teen Girl, pump styles are shown with more grown-up airs. Vamps are highlighter with bright buckles, flat ties, or with high-rising tabs perforated to reveal underlays of contrasting colored leather. Many of these little pumps ride on gracefully curved low Louis heels to give a real fashion lift to the young Miss.

For the school room, there's a grand lineup of leather flats and low heels in both dark and bright colors, along with the stand-by brushed leather and saddle shoes and highly polished smooth or textured leather loafers with handsewn seams — all on slim leather soles. The newest moccasins will feature a gently squared toe.

Most Pretty Girls Want Pretty Curls

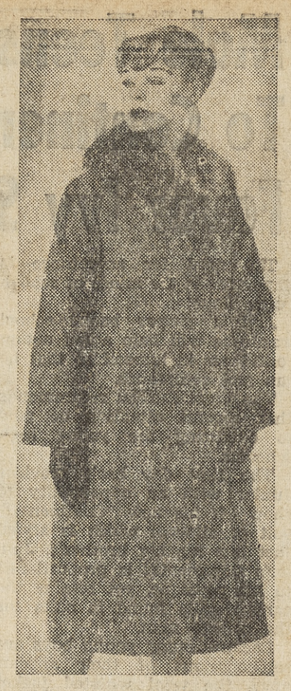

The mother who is bemoaning the fact that her little girl was not born with curly hair, can now cheer up!

Makers of home permanents are stressing permanents especialy for children's hair. They're gentle; doing nothing more than to give the hair body and elasticity. Just what it needs to make it docile enough for simple and pretty arrangements!

Before starting to give a child a home permanent, mother should study her little girl's general type as well as her features.

Studying photographs and illustrations of little girls seen in most popular publications gives lots of ideas for new hair-dos, too.

Know your child; follow, faithfully, the directions of the permanent; restrain from giving her too much wave — and she'll look childishly charming!

RACCOON RETURNS TO COLLEGE! Here an on-or-off collor trims a smart all-weather coat. The coat, in corduroy, is ideal for most any occasion. Pile lined.

Let Teenage Girl Decorate

If you're planning to redecorate your teenager's bedroom, give her a chance to do it herself. If she chooses the bedspreads, all paint, etc., she will be more likely to keep her shoes off the bed and hands off the walls.

Since high school is "growing up time" for teenagers, the transition from "kid" to "young lady" should be reflected in her living quarters. To help achieve this, offer (but don't press) your advice.

Lemon Grove Girl Admitted to Fall Semester at Davis

DAVIS (Spcl) — Miss Kay Diane Gullikson of Lemon Grove has been admitted for the fall semester at the University of California, Davis, Registrar Howard B. Shontz has announced.

Miss Gullikson is the daughter of Mr. and Mrs. Edmond C. Gullikson of 1313 Lincoln Place, Lemon Grove, A 1959 graduate of Mount Miguel High School, she has been admitted to the College of Agriculture and plans to follow the pre-veterinary medicine curiculum.

Registration for the fall semester will take place September 17 and 18. With the expansion of the College of Engineering at Berkeley to include Davis, the University of California, Davis now consists of the Colleges of Agriculture, Letters and Science, and Engineering, and the School of Veterinary Medicine.

94 Youngsters In Spring Valley Swim Program

There were 94 pre-schol children from the Spring Valley area enrolled in th "back-yard" swim program this summer, sponsored by the Spring Valley Elementary School PTA, in cooperation with the Red Cross program.

The session included ten lessons from June through July and were held in the private pools of C. S. Williams, 3822 Rogers Rd.; W. J. McNelly, 3630 Birdie Dr., Brokside; and J. A. Pickens, 9426 Barbic Ln.

Ten mothers took the instruction course and assisted in teaching the children water safety and good smimming practices. Women who took the course were Caroline Belt, Adriene Compton, Frances Fusco, Bernice Gronnel, Mary Ann Klein, Jean McKee, Adelle Nelson, Edna Pickens, Paula Roe and Peg Thivierge.

WARMTH WITHOUT WEIGHT . . . thanks to the lining of acrylic pile fabric. It's moth and mildew-proof, dry cleans very well. Details: jewel- collar, roomy pockets, raglan sleeves!

It has been found that girls more than boys suffer from food deficiencies — probably due to dieting in order to gain a popular-sized figure.

HER VERY OWN ACCESSORIES in soft pastels, daintily trimmed with posies and sparkle make good grooming a real delight for the teenager. Handsome additions to any girl's vanity table are hand mirror, tissue dispenser, and lipstick bar for her favorite lipsticks.

THE "SWEETHEART LOOK" is the theme of this soft, easy-to-manage hairstyle particularly designed for the high school miss and her collegiate sister. A variation of the "Bubble," its fullness is softened by the gentle fringe bang. Although professionally-styled, it is the correct type of hair-do for the busy school girl because it is easy-to-care-for after the beauty shop visit.

'Beatnik Look' Is Dead Issue In School Set

The "beatnik look" in the classroom is definitely on the way out.

Many school authorities have taken it upon themselves to enforce good grooming, banning blue jeans, motorcycle jackets, open-necked shirts and other sloppy wearing apparel, declaring this unrestraint in dressing contributes to juvenile delinquency in looks and actions.

The "clean up" movement began in several Eastern schools. Officials noticed immediate improvement in both boys' and girls' behavior when more appropriate school clothing was worn. The students seemed to take more pride in their appearance, and hence in themselves as individuals.

Leggy Look is Story of Tights

Climate makes no difference . . . from Maine to California, Florida to Alaska, feminine students will be wearing tights.

Only a few years ago tights were just for dancers or for keeping warm. But no longer. Tights this fall are simply too attractive not to wear.

Girls of all ages have embraced them for day and play wear, for fashion and comfort.

On college campuses many of the smartest co-eds will wear the newest lacy-knit tights, for dressiest occasions, in place of conventional hose.

Definitely in the dormitory, tights will be fashion-first for both lounging and keeping extra warm during dream hours.

Under skirts, shorts, bermudas and skorts, tights add an extra dash of fashion spice!

Colorful? You bet! Every beautiful, exciting color appears in tights this season . . . and sometimes more than one color per pair.

Patterns, too, are diversified, and knit right in . . . just like the co-ed's favorite sweater.

Weight-wise, tights range from the very lightest to extra heavy. Many are now seamless. Two "best of alls" . . . tights really fit, any figure . . . and they cost very little!

☆ Inteligent cooperation, with tolerant excusing of the errors of others, explains the progress of the human race.

CHECKED FOR CAMPUS honors! Checks and plaids artfully combine in this smart wool coat. Bonus features: four extra-large buttons, squared high on the bodice; giant-size patch pockets; a bonus in the fullness of the coat itself.

FOR THE GIRLS

Girls' fashions take on a more elegant look not just "top side," but beneath it all, too.

Embroidery, tiers of ruffles, dainty trimmings and full skirts enhance the slips that give foundation to back-to-school dresses and ensembles.

BEGONIA SOCIETY PLANS MEETING

Capt. and Mrs. E. C. Barker, 6757 Hibiscus Dr., San Diego, will host the San Miguel Begonia society, Wednesday, Sept. 2, at 6:30 for a patio pot-luck dinner. Mrs. J. W. Lowry, president, will conduct the business meeting followed by slides of the recent national convention of the American Begonia society in Plummer Park, Hollywood.

Demure 'Old Fashioned' Theme Leads Modern Miss's Wardrobe

As school days draw nigh — bright - eyed, fashion - wise young misses turn their thoughts to wardrobe requirements for the classroom.

Though the fashion scene is one of infinite variety, one "look" seems to hold its own in all dress showings.

Call it "quaint" . . . "demure," or "old-fashioned,' there are lots 'n' lots of details that seem to be right out of story-boks.

Wide collars, full skirts, all 'round pleats, embroidery and lace trims point-up a feeling of "old-fashioned' femininity!

An "Early American" mood sparkles forth in crisp calicos, provincial prints, rick - racks, high-necked bodices and smooth fitted midriffs.

Even colors are reminiscent of past fashion influences as plums, olives, greys, beiges, browns and winter navy come to the fashion front for girls of all ages.

Pert, pretty detailing animates girls' dresses in such "jeune filles" stylings as full - blown sleeves: bell, balloon and puffed; in shortened, fuller shirt-waist dresses; dirndls; trims of fagotting, smocking, braid and the like.

Corduroys and velveteens, solid colors and prints — cottons in polished finishes, faille weaves and broadcloth; flannels, wools and wool blends are all favored for fall.

There's a new mood to plaids this fall with bright emphasis on authentic tartan patterns, shadow plaids as well as everything from houndstooth to windowpane in checks.

In addition to the more subdued Victorian look of girls' dresses, there will be slender Oriental-inspired styles, neat-as-a-pin classic sheath types and an abundance of gently-defined styles — perennially classic.

All in all, dresses shape up with top honors for fall with style for everyone, be she just six . . . or just past sixteen!

ON-THE-GO, this is the packet that little girls want! Made in a poplin fabric of 55 percent Kodel, new polyester fiber and 45 percent rayon. Detachable hood is trimmed with a like-fur all-acrylic pile.

Plaids Make Bold Return

Hoot Mon! There's news for bonnie lassies in Scottish-inspired themes!

Look for wrap-type kilt-like skirts with fringe and huge safety pin closing as well as pleated all 'round skirts in Royal Stewart, Hunting Douglas, Ancient Cummings and other authentic clan tartans.

Lads, too, will like the new plaids shown in sport shirts, jackets and sur coats; campus casuals point up walking shorts and even all plaid just-for-fun slacks.

PACK LUNCHES WITH GOODIES — A piece or two of candy with its high nutritional values, is ideal for adding excitement to school-going lunches. It's a good idea to let the child make his choice from a box of fresh chocolates.

Less Casually Styled Collegian Shoes Are

This year's collection of shoes for a college man's wardrobe shows footwear styled with a distinct look of elegance!

Setting a new style pace is the italian - influenced square-toed shoe, in smooth or lightly etched leathers or combinations of both. Most prominent are the sleek slipons with moc or plain toe, and the two-or-three eyelet bluchers.

Thick leather soles that college men prefer for both comfort and fashion are much in evidence this year.

For collegians who prefer more traditional styles, there's a god choice of handsewn Norwegian moccasins, heavy leather-soled cordovans, wing - tips with finer perforations and the five-or six-eyelet oxford.

For dress-up occasions you'll find a large range of styles in various leathers. He'll go dancing in good-looking two-eyelet tie in shiny black patent leather, or a black patent slipon pump with flat bow. Or he'll choose a square-toed slipon in highly polished black smooth leather or a smooth grained two-eyelet tie blucher with plain toe. Both may be worn for less formal occasions too.

Jewelry Accents Give Dash to Girls' Wardrobes

Many a girl learns her important fashion lessons before she ever sets foot in school. One of these is plan-coordinating her wardrobe and jewelry.

The right jewelry gives a look of "something special" to new clothes and a brand new look to others.

One of the most basic jewelry items for school wardrobes is pins. A wardrobe of pins rates a girl top fashion marks.

A pair of small pins are perfect mates for the collar of the shirtwaist dress. The new, wide belts that re-emphasize slim waists gain an added point with a smart pin pinned through them.

Girls who like the "Chanel look" can wear their shirt cuffs outside their sweaters, pushing them up to the mid-forearm length and spotting two small pins on the cuff.

A big, tailored pin, worn on the end of a chain necklace, will enable a girl to loop the chain over it and wear the whole as a smart belt on a sweater.

A pretty pin worn on a hairband keeps the new hairdos sleek and pretty.

Bracelets also play a big role in a school wardrobe. The trick of wearing matching bracelets on both wrists is a touch of fashion that is fun and smart.

Necklaces with tiny "drops" continue to be top favorite with girls of all ages. Worn alone they are dainty conversation pieces. They can be worn with any other type of necklace for another young fashion note.

The whole broad color family of brown - ranging from beige to a deep, rich pheasant brown — is making a bid for fall popularity.

The lovely, new colored necklaces are perfect companions. In colors such as topaz, amber, pumpkin, they give a simple but elegant note to all fashions.

1,500 INFANTS ARE LOST IN CRIB ACCIDENTS YEARLY

Among children, each age-group has its own special accident problems. Suffocations and chokings, which take 1,500 lives annually, are the main hazards to infants. Sixty-five fatalities have been charged this year to mis-use of plastic bags, all of them avoidable accidents, according to the National Safety Council.

30 New Teachers Eye Pre-School Orientation

Thirty teachers, new to Lemon Grove, will be among the 140 local educators convening at the junior high auditorium next Wednesday morning, September 2, for the annual pre-school orientation week. Four full days of general meetings, building discussions, and room preparation will occupy the teachers' time before an estimated 3,800 pupils fill the district's seven schools on Thursday, September 10.

Roy L. Smith, retired minister of the First Methodist Church, Los Angeles, is speaker at the first session on Wednesday. A former writer for the Chicago Tribune Syndicate and a foreign correspondent, Smith is an authority on the Orient and present-day political activities in China. He is a former head of the Methodist Publishing House and a past editor of the Christian Advocate.

Following a meeting of the Lemon Grove District Teachers Association Thursday morning, faculty members will meet in grade level groups. A luncheon for all certificated employes also is scheduled tht day. All meetings on September 3 will be held at San Altos School. The 30 new teachers will be guests on Wednesday of the Lemon Grove Kiwanis Club at a special luncheon.

On Tuesday morning, September 8, teachers will convene at Balboa Park for the annual San Diego County Institute. Throughout the workshop beginning September 2, teachers will have unscheduled time to prepare classrooms, recheck text books, etc. Because Monday, September 7, Labor Day, and Wednesday, September 9, Admission Day, are legal holidays, no meetings are scheduled on those days.

Thirty New Teachers to Instruct In Lemon Grove District Schools

Each fall in California every school district sees its faculty roster grow longer as enrollment figures swell. It's not a new thing to Lemon Grove School District, and it is a trend which can be expected to continue. This September, 30 new teachers enter classrooms here, bringing the actual teaching staff to a total of 132. Some of these teachers are replacing others; many are here because the district will have more pupils to teach. Some of these teachers have had experience teaching in other districts and/or other states; some will be new to the profession.

To introduce them to the community, all 30 will be guests on Wednesday, September 2, of the Lemon Grove Kiwanis at a special luncheon. To introduce them to even more citizens, this newspaper will present thumbnail sketches of the new teachers by schools. This week instructors at Lemon Grove Junior High School are featured.

Miss June Cunningham, a social studies teacher, is a recent graduate of Colorado State College with a BA degree. Interested in international relations, she also belonged to the Association of Women Students while in College. New physical education instructor at the junior high is Plato Arapostathis, who attended Wayne University in Michigan. He graduated from San Diego State with a BA degree. He has done extensive work as a recreation leader and with the Scouts and the YMCA. A member of Kappa Alpha, Arapostathis has traveled in Mexico, Canada, and Europe.

Miss Elizabeth Erwin, who will teach social studies, is an exchange teacher from Hawaii. She will be at Lemon Grove this year while Robert Masters teaches a year on the Islands. Miss Irwin holds a BS and an MA degree and attended USC, Kansas Teachers College, and the University of Hawaii.

Miss Patricia Lane also has been assigned social studies at the junior high. A new graduate of Colorado State College with a BA degree, she belongs to the International Relations Club and the National Council for Social Studies Teachers. New home economics teacher is Miss Marlene Pfeifle, who earned her BS degree at North Dakota State and also studied at the University of Arizona. iWth one year of teaching experience, she belongs to Kappa Delta, the Student Union Board and the National H. E. Assoriation, and has done camp counseling and Scout work.

Miss Liane Richman, who has had two years experience in teaching, will be assigned to social studies. A graduate of Concordia College, Minnesota, where she earned a BA degree, Miss Richman belonged to the Minnesota Education Association. New science and math teacher is Jack Thomas, who is a graduate of the University of South Carolina. He formerly served in the U.S. Air Force.

Miss Margaret Walker, another new math teacher, has three years teaching experience. She graduated from San Jose State College with a BA degree. Arlenn Thorstenson, social studies teacher, graduated from North Dakota State Teachers College and also attended the University of Nebraska. He has half a year of teaching experience; prior to that he served in the U.S. Army. He belongs to Gamma Theta Upsilon.

Miss Florence Weller, new addition to the girls' physical education staff, earned her BS degree at Southern Illinois University. Boasting eight years teaching experience, Miss Weller also is interested in music. She plays the flute, saxaphone, and clari net.

Next week profiles will ap pear on new teachers at some of the elementary schools in the Lemon Grove district.

PICTURE TALK

by Bob Vaught

SCHOOL DAYS, SCHOOL DAYS

Judging from the pleasant flurry of activity at our counter the past few days, it looks like more cameras than ever will be going to school this year. The idea, as one bright-eyed coed explained, was to make "a sort of personal yearbook — you know, one full of pictures of **my** crowd."

Sounds like a swell idea, doesn't it? And all it takes to do likewise is a camera and the habit of taking it to school regularly.

Bob Vaught

What would you take pictures of? Well, just for a starter, how about snapping your friends laughing it up the way you always do at lunch time? Or taking pictures of your school play in rehearsal? Or a meeting of your favorite club? Or the rally before the big game? Or the glamour of the prom?

Without any trouble, you could probably run the list on and on. And that's just the point — a school year is full of wonderful picture possibilities. But you'll never snap 'em unless you do something about it right now.

That "something" is to drop into our store before the school bell rings for the first time and pick out your very own Kodak camera. Prices start well under $10, so you won't have to worry about mortgaging your allowance to swing the deal.

Aside to proud parents sending a boy or girl off to college: Wouldn't a handsome new Kodak camera make a wonderful "off-to-school" gift?

Leather Fashions Adapt to All Dress Occasions

Leather looms larger than ever on the fashion horizon this fall, since the drape of leather and its lush, rich texture gives distinction to the languid, graceful lines of the new silhouettes in coats and jackets.

Jackets range in length from below-the-waist to finger-tip, and coats from three-quarter to full length.

Many new linings are seen, including red felt used to perk up earthen-toned suede jackets and black capeskin coats. Another newcomer in linings is striped wool jersey matched to a slim suede coat. Wool knit and padded silk foulard linings add hangar appeal to motor coats. Zip-out alpaca linings are popular with collegians and suburbanites.

Because it can be cut to stand out from the body, leather will give emphasis to the fashionable cocoon-shaped coat with deep dolman sleeves, wide collar, shirred back yoke and tapered hemline.

Some of the unusual styles will make leather talked-about this season, include a shortie trench coat that hits just below the waist when belted; a his'n hers blazer jacket; a ski jacket in wool knit and leather, and a coat with two sets of removable buttons — one in leather for afternoon wear and one of rhinestones for evening.

Mt. Miguel High Registration Set For Sept. 2 and 3

All new students at Mt. Miguel High School must register on September 2 or 3, Principal Mel Grant said this week.

Students who were in attendance last year, he said, need not register.

A special freshman orientation day for new students, who will be in high school for the first time, has been set for September 8 from 9 a.m. to 12:30.

School classes start on Thursday, September 10.

FOR ON-OR-OFF CAMPUS WEAR this lad selects a handsome sweater and easy-to-care-for slacks. The slacks are Ivy-styled in a wrinkle-resistant blend of Kodel, new fiber.

Printed Matter Is Newsworthy In School Shirts

This is the season when printed matter makes men's sport shirt news!

This fall, even the most conservative male will find himself adding one or more printed sport shirts to his wardrobe.

Taking off from dress shirts, sport shirts have added a wealth of Continental styling touches, combined with prints that are smarter and more subdued than yesterday's bold patterns.

The fall sport shirt scene shapes up this way: Continental details are expressed in shorter and straighter one-piece collars; fancy pocket and cuff effects or printed collar and cuff accents continue this style theme.

Even the traditional Ivy-style has sprouted new touches.

The "always-button-down" bit has changed to tabless tabs, with more pullovers being shown. Prints and button-downs are now as acceptable a combination as ham-and-you-know-what.

SMART AND WELL-BEHAVED! The simulated bolero jacket dress is designed in a plaid fabric that resists wrinkles, launders with a minimum of care . . . never loses its crisp, well-behaved texture, thanks to Acetate and Cotton.

Good Looking Male Clothes Go Schoolward

Boys will be boys, but this fall they'll dress like the men, in fashions that play up fabric, color and Continental styling.

Suitings are light in weight (10 to 13 ounces) but are a hard finish as in worsteds; blends of wool or worsted with orlon, dacron, acrilan or zefran. There's also a new interest in hopsacking in both suits and sport coats.

And as for sportcoats — which boys go for — Shetlands, Shetland types, hopsacking and the "good ole" flannel blazer jacket all come to the fore!

Dark tones . . . as in olive . . . browns . . . black-olive . . . char-olive . . . are lively looking. Traditional background tones are sparked with blues, greens and burgundy.

Brown seems to lead for fall . . . greys are a very close second!

Neat checks, Glen and shadow plaids, muted stripes, as well as the traditional herringbones and birdseyes are particularly interesting in patterns.

In the boys' and youths' departments, you'll find dozens of variations on Continental themes:

Coats are a trifle shorter and more tapered than the Ivy — some have one button; others two or three — there are peaked, semi-peaked and even shawl collars.

Some have lapel pockets, some don't! Some have trousers with adjustable waistbands, others have separate waistbands, still others ars shown with straight fronts.

Some trousers have back pockets; tabbed, flapped or plain . . . others none at all; some trousers have western type pockets or slanted welts in the pleat pockets.

Cutaway front or not — the Continental is here in an infinite variety of detailing to suit every boy's taste.

Good Luggage Points Up Utility And Smart Looks

Since the luggage the freshman lad takes to college is in for a lot of hard knocks, it's a good investment to buy a set that'll stand rugged wear.

Leather is ideal for hand luggage because of its distinctive appearance and because, in its manufacture, leather is subjected to rigid pressure and puncture tests.

A bag of rugged, mellow leather is traditionally endowed with a certain masculine quality. The male who loudly denies any charges of vanity will generally drop the disinterested pose when it comes to selectin a piece of luggage.

The college man will need a suiter bag to hold one to four suits and accessories, and a companion bag.

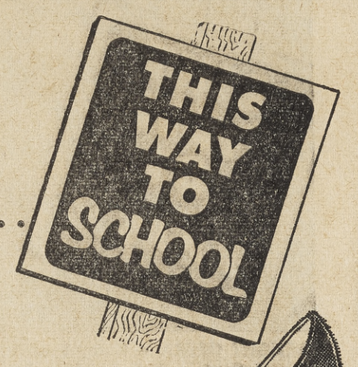

Shiny black is a new luggage leather color, but the familiar ginger or lighter suntan is always good.

Natural pigskin is another college favorite, along with the new brushed leather.

Leather luggage is also easier to pack — because of its flexibility, there's alway room for that extra "last-minute" item.

In packing, all odd-shaped things, shoes, cases, and so forth, should be put on the bottom and spaces between filled in with soft, crushable items such as socks. Then put suits on top.

Spring Valley Girl Wed In Presbyterian Church

The La Mesa United Presbyterian Church was the setting Sunday (August 22) for a wedding which united a Spring Valley girl and a Costa Mesa man; Dorothy Marie Jones and Ronald V. Christensen. Rev. Kenneth D. Grant performed the ceremonies. The bride was given in marriage by her father.

The bride is the daughter of Mr. and Mrs. Lawrence E. Jones of 2877 Helix St., Spring Valley. She is a graduate of Mt. Miguel High School, class of 1959, and has been working in Lemon Grove as a dental assistant.

The groom is the son of Mr. and Mrs. G. Roy Christensen of Costa Mesa. He is a graduate of Newport Harbor High School, Newport Beach. He is in the Army Reserve.

Participating in the wedding ceremonies were: Matron of honor, Mrs. Wallace West, sister of the bride; Virginia Sawyer, bridesmaid, cousin of the bride; best man, William Boyce, brother-in-law of the groom; ushers, Gary Foell and Roger Loring, bother-in-law of the groom. LeRoy Christensen, brother of the groom, and Rosemary Christensen, sister of the groom were soloists.

The bride's gown was white lace of balerina length, with long sleeves. Her white lace cap carried a fingertip veil. The bride's bouquet was of white orchid, white rosebuds and stephanotis. The matron of honor and the bridesmaid were dressed alike in mint green, street-length organdy dresses. They carried bouquets of pale-pink carnations and stephanotis.

The reception was held in the church hall. Following a short honeymoon, the newlyweds will live at Costa Mesa.

☆ West coast residents consume an average of 22 pounds of butter per capita, far above the comparison of southern states' residents, who use only 8 pounds.

NOTICE TO BIDDERS

NOTICE IS HEREBY GIVEN that the Lemon Grove School District of San Diego County, California, acting by and through its Governing Board, hereinafter referred to as the District, will receive up to, but not later than 2:00 o'clock p.m. of the 3rd day of September, 1959, sealed bids for the award of a contract for school furniture equipment and supplies.

Such bids shall be received in the office of the Governing Board of said District located at 8025 Lincoln Street, Lemon Grove, California and shall be opened and publicly read aloud at the above stated time and place.

Each bid must conform and be responsive to this invitation, the Information for Bidders, the Specifications, the Plans and all other documents comprising the pertinent Contract Documents. Copies of the Contract Documents are now on file and may be obtained in the office of said board at the above address.

Each bid shall be accompanied by a certified or cashier's check payable to the District, or a satisfactory bid bond in favor of the District executed by the bidder as principal and a satisfactory surety company as surety, in an amount not less than 5% of the maximum amount of the bid. The check or bid bond shall be given as a guarantee that the bidder shall execute the contract if it be awarded to him in conformity with the Contract Documents, and shall provide the surety bond or bonds as specified therein within five (5) days after notification of the award of the contract to the bidder.

The District reserves the right to reject any or all bids, to accept or reject any one or more items of a bid, or to waive any irregularities or informalities in the bids or in the bidding. Preference will be made in the award for California made supplies, pursuant to Sections 4330 to 4334, inclusive, Government Code.

No bidder may withdraw his bid for a period of thirty (30) days after the date set for the opening of bids.

Re the Proposed Annexation to) The LEMON GROVE) Sanitation District)

RESOLUTION OF INTENTION TO ANNEX UNINCORPORATED TERRITORY TO THE LEMON GROVE SANITATION DISTRICT AND NOTICE OF HEARING THEREON

On motion of Supervisor Austin, seconded by Supervisor Gibson, the following resolution is adopted and notice is ordered by the Board of Supervisors of San Diego County;

WHEREAS, Herman M. Hale, the owner of certain property in unincorporated territory of the County of San Diego contiguous to the LEMEN GROVE Sanitation District, has requested this Board (Document No. 267414) to annex said property to said Sanitation District under the provisions of the County Sanitation District Act; and

WHEREAS, the County Boundary Commission has approved the boundaries of the proposed annexation (Document No. 266488); and

WHEREAS, investigation of the proposed annexation by the Division of Engineering of the Department of Public Works discloses that said property is contiguous to said Sanitation District and that it would be desirable and feasible to sewer said property by extension of said District's lines (Document No. 267411); NOW THEREFORE

BE IT RESOLVED AND ORDERED:

(a) That it is the intention of the Board of Supervisors of the County of San Diego to annex to the Lemon Grove Sanitation District under the provisions of the County Sanitation District Act all of that contiguous unincorporated territory of the County of San Diego, none of which is now included in any other county sanitation district or other district or districts formed for similar purposes, bounded and described as follows:

All that unincorporated territory in the County of San Diego, State of California, lying within the following described boundary:

Avocado Growers Invited to Hear Fertilizer Talks

Are avocado fertilization recommendations confusing to you? This question has been asked of many avocado growers throughout San Diego County . . . many of them being in the Spring Valley area.

C. D. Gustafson, farm advisor, invites all avocado growers to a meeting Thursday of this week at 2 p.m. at the Yarnell ranch, Winterhaven Rd., ¼ mile east of Green Canyon Rd., Fallbrook.

Gustafson says, "Come hear and see the latest results from research and field work at the meeting." Besides Gustafson three other persons in the agriculture field will speak; Dr. Tom Embleton, horticulturist, Citrus Experiment Station, Riverside; Hal Burchett and Dick Yarnell.

Three important items will be stressed: leaf analysis information; observing of diferential nitrogen field plots; and latest fertilization.

Firemen Kept Busy With Minor Chores

A false alarm, a grass fire and first aid treatment of a boy who fell off a bicycle were the major duties of the Lemon Gorve fire department during a recent week.

The false alarm was at the Cresta Loma Rest Home, 7922 Palm Ave., where an alarm system "faulted" and summoned firement.

A grass fire at 2353 El Prado did no damage; a fire under the hood of an automobile in the 7800 block on Broadway did $50 damage.

First aid treatment was given John Ryan, 14, of 428 Encinitas St., Lomita Village, after he caught his foot in the spokes of his bicycle and fell.

La Presa Area Subdivision Okayed By Supervisors

SAN DIEGO (CNS) — A zone change to permit a subdivision on 40 acres in the La Presa area has been approved by the County Board of Supervisors.

The Board gave zoning to make a building site of 6,000 square feet of area for land owned by Ernest J. Billman. The action had the recommendation of the County Planning Commission. The land previously was zoned for half-acre building sites.

In addition to the rezoning, the Supervisors also approved annexation of the area to the Spring Valley Sanitation District.

The land is located in the Sweetwater Valley area, between the Spring Valley community and Sunnyside.

All of the said work hereinbefore generally described shall be constructed in the manner, to the grades, at the locations, within the limits, of the materials, and of the dimensions as shown upon and in accordance with the plans, profiles, drawings, typical cross-sections and specifications therefor, contained in Document No. 267923 on file in the office of the Clerk of said Board of Supervisors, and copies of which are on file in the office of the Engineer of Work, and by this reference thereto, all said plans, profiles, drawing, typical cross-sections and specifications are made a part hereof.

The said Board of Supervisors hereby determines and declares that serial bonds shall be issued to represent each assessment of Fifty Dollars ($50) or more remaining unpaid after the full expiration of thirty days from the date of the warrant, to represent the expenses of said work and improvement. Said serial bonds shall extend over a period ending nine years from the second day of January next succeeding the next October 15th following their date, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year following the next October 15th after their date until the whole is paid. Said bonds shall bear interest at the rate of six percent per annum, interest payable semi-annually, by coupon, on all sums unpaid until the whole of said principal and interest are paid. Said bonds shall be issued and the principal and interest thereof shall be paid under and in pursuance of the Improvement Act of 1911 and amendments thereto; and if said bonds are redeemed before maturity and before commencement of proceedings for sale, in addition to all other sums unpaid and accrued a premium of five percent (5%) of the unpaid principal shall be paid.

The contemplated work and improvement hereinbefore mentioned is in the opinion of said Board of Supervisors, of more than local and ordinary public benefit, and the expenses of such work and improvement are made chargeable upon the district hereinafter described, and said Board of Supervisors does hereby declare said district to be the district benefited by said work and improvement, and to be assessed to pay the costs and expenses thereof. Said district is described as follows, to wit: All that real property in the County of San Diego included within the exterior boundary lines of said district, as shown upon that certain map bearing number RID 6034, indicating the exterior boundary lines of such district, which map, approved by said Board of Supervisors, is on file in the office of the Clerk of said Board of Supervisors of the County of San Diego as Document No. 267924, excepting therefrom all public streets, roads, alleys, avenues and highways. Reference is hereby made to said map for a particular description of such district.

It is the opinion of said Board of Supervisors that the public interest will not be served by allowing the property owners to take the contract for the work to be done under these proceedings.

NOTICE IS HEREBY GIVEN that on Tuesday, the 15th of September, 1959, at 11:05 a.m., in the chamber of said Board of Supervisors of the County of San Diego, Room 310, City and County Administration Building, 1600 Pacific Highway, San Diego, California, any and all persons having any objections to the proposed work or improvement, to the grade at which said work is to be done, or to the extent of the district to be assessed to pay the costs and expenses of said proposed work or improvement, may appear before said Board of Supervisors and show cause why said proposed improvement should not be carried out in accordance with this Resolution.

Such protest, if any, must be in writing, and must contain a description of the property in which each signer thereof is interested, sufficient to identify the same, and shall be delivered to and filed with the clerk of the Board of Supervisors of the County of San Diego, in Room 306 of said City and County Administration Building, not later than the hour hereinabove set for hearing. No other protests or objections will be considered.

The clerk of this Board of Supervisors is hereby directed to cause this Resolution of Intention to be published twice in the Spring Valley Bulletin, the newspaper hereby designated for that purpose by this Board.

The Clerk of this Board of Supervisors is hereby directed to mail notice of the adoption of this Resolution of Intention, postage prepaid, to all persons owning real property proposed to be assessed, whose names and addresses appear on the last equalized County Assessment Roll, or as known to said Clerk, all in the time, form and manner required by law; if property assessed by the State under Section 14 of Article XIII of the Constitution is proposed to be assessed, such notice shall be mailed to every owner of such property at the address thereof shown on the last board roll transmitted to the County Auditor as required by Section 5070, Streets and Highways Code.

The Clerk of this Board of Supervisors shall, upon completion of the mailing of said notices, file with this Board an affidavit setting forth time and manner of the compliance with the above requirements for mailing such notices.

The Superintendent of Streets shall, after the adoption of this Resolution of Intention, cause to be conspicuously posted along the line of said contemplated work or improvement, at not more than three hundred feet in distance apart, but not less than three in all, notices of the passage of this Resolution of Intention, and when the work to be done is only upon an entire crossing or intersection, or any part thereof, he shall cause such notices to be conspicuously posted in front of each quarter block or irregular block liable to be assessed, and when the work is chargeable upon a district, he shall cause such notices to be conspicuously posted upon all open streets within such district at not more than three hundred feet in distance apart on each street so posted; all in the time, form and manner required by law; and thereupon said Superintendent of Streets shall cause to be filed in the office of the Clerk of this Board of Supervisors an affidavit showing the posting of said notices of improvement.

All of the herein proposed work shall be done in pursuance of an Act of the Legislature of the State of California, designated as the "Improvement Act of 1911," and amendments thereto.

PASSED AND ADOPTED by the Board of Supervisors of the County of San Diego, State of California, this 11th day of August, 1959, by the following vote:

AYES: Supervisors Gibson, Bird, Dent, and Austin.
NOES: Supervisors None.

SV Woman's Club Board Discusses Future Plans

The executive board of the Spring Valley Woman's Club met recently at the home of president Gretta Mickelson to discuss plans for future club programs and the annual bazaar.

Mrs. Ruth Taylor, program chairman, has arranged for health specialist Dr. F. W. Bonaventura to speak at the club's September 9 meeting. The Doctor's topic will be "Healthful Living." Community singing also will be part of the program.

The regular monthly card party will be held September 2 in the Spring Valley Chamber of Commerce hall, 9050 Memory Lane, starting at 1 p.m. The donation is 50 cents per corner, with everyone invited, says Mrs. G. D. Lindeneau, publicity chairman.

The bazaar date has been set for October 22. A workship in conection with the bazaar was held Tuesday in the Chamber of Commerce hall.

Civic Youth Orchestra Auditions Set Sept. 5

Auditions for membership in the Civic Youth Orchestra during the 1959-60 season will be conducted Sept. 5 and 6 in the Helix High School band room by Lawrence K. Christianson, conductor, and a committee of two other musicians from the San Diego Symphony.

Advanced young instrumentalists wishing to play with the three-year-old symphony group may make appointments for audition times with Mrs. H. W. Rubottom, secretary, 4165 Avocado Blvd., La Mesa (telephone HO 6-8144), or with Mrs. Con ant Moulton, manager, 2283 Whitman St., San Diego (telephone CY 6-2322).

Christianson, head of the music department at Mt. Miguel High School in Lemon Grove and principal horn player in the San Diego Symphony, was named to succeed Daniel Lewis, director of the Civic Youth Orchestra since its inception in 1956. Lewis is in Europe for a year's study of conducting under Fulbright and Howard Foundation grants.

Crandall Condra, San Diego attorney, is president of the nonprofit Civic Youth Orchestra, and Howard R. Brubeck of La Mesa, head of the music department at Palomar Junior College, is vice president. Other officers are Arthur L. Anderson, recently named manager of the El Cajon branch of the San Diego Trust and Savings Bank, treasurer; Mrs. Rubottom; Mrs. John Dirks and Mrs. Donald M. Hill of La Mesa, Mrs. C. Forrest Baxter of Lemon Grove, and Dr. Clyde H. McMorrow and Russell Keeney of San Diego, directors. Mrs. Moulton also was named manager and re-elected to the orchestra's board of directors at the organization's annual meeting last week. Francis E. Harper is membership secretary.

Nearly half the orchestra's 80 personnel reside in the Lemon Grove-La Mesa-El Cajon area. The orchestra is supported by tuitions paid by performing members and by public contributions.

Twice-weekly workshop rehearsals will begin Sept. 12 at Helix High School. The orchestra presents at least two yearly public concerts.

Janice Murawski Engagement Told by Parents

Mr. and Mrs. Stephen M. Murawski of 870 Dell Anne Place, Lomita Village this week announced the engagement of their daughter, Janice Diane, to David S. Arnott III of Lemon Grove.

Miss Murawski is a senior at Lincoln High School. Mr. Arnott is a 1954 graduate of Helix High School and is now an airman stationed in Cannes, France.

His fiance will fly to France in October for the wedding.

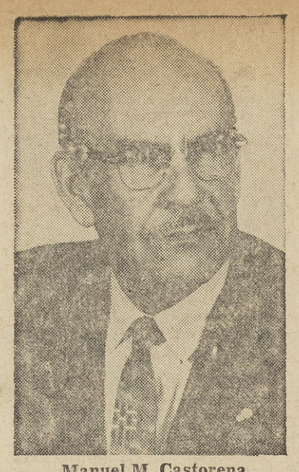

The couple have planned a month-long honeymoon in the Swiss Alps.

ROTARY DISTRICT GOVERNOR TO TALK AT LOCAL CLUB

The Rotary Club of Lemon Grove will be host Monday to Manuel Castorena, governor of the 534th district of Rotary International, who is making his annual official visit to each of the 45 Rotary Clubs in Southern California. He will address the local club and confer with President Rolla Hamilton, Secretary Joe Artavia and committee chairmen on Rotary administration and service activities.

Mr. Castorena is a member and past president of the Rotary Club of Carlsbad, and director of the Oceanside-Carlsbad branch of the American Red Cross. He has been vice-president of the Carlsbad Chamber of Commerce, City Councilman and Mayor of Carlsbad, and President of the San Diego County Division of the California League of Cities. He was elected as District Governor of Rotary International for the 1959-60 fiscal year at Rotary's 50th annual convention in New York City, last June. He is one of the 261 governors supervising the activities of more than 10,200 Rotary Clubs which have a membership of nearly 500,000 business and professional executives in 113 countries throughout the world.

Wherever Rotary Clubs are located, President Hamilton said, their activities are similar to those of the Rotary Club of Lemon Grove because they are based on the same general objectives — developing better understanding and fellowship among business and professional men, promoting community-betterment undertakings, raising the standards of business and professions, and fostering the advancement of good will, understanding and peace among all the peoples of the world.

Manuel M. Castorena

Each year, this world-wide service organization continues to grow in numbers and in strength, President Hamilton said. During the past fiscal year, 374 new Rotary Clubs were organized in 53 countries, bringing the total number of Rotary Clubs to an all-time high of more than 10,200 and four countries were added to Rotary's roster — British Guiana, Ghana, Madascar and Nepal.

VACATION VISITORS

Court Awards $10 In $17,500 Suit

Kenneth Priest, 1715 Englewood Drive, Lemon Grove, operator of six Hollywood Beauty Shops including one in Lemon Grove, was tapped for only $10 last week in Superior Court on a suit for $17,500.

The suit followed the publishing of a beauty shop advertisement showing the picture in late 1957 of a 16-year-old patron of one of his shops. The patron claimed she did not give permission for the use of the picture. The patron had attracted considerable attention because the hair-do was pastel pink. She was ultimately suspended from high school pecause of the unusual color of her hair.

The case was brought to a non jury trial before Superior Court Judge Joe Shell by Lemon Grove Attorney V. J. Dorman. The plaintiff charged that she had suffered an invasion of privacy resulting in $17,500 worth of embarrassment because of the use of the picture in Hollywood advertising.

Judge Shell ruled that embarrassment amounted to $10.

Youngster Bitten By Scorpion

The three-year-old daughter of Mt. Miguel High School Principal Melvin Grant was stung on the neck by a scorpion last week.

Little Pamela was treated at Scripps Memorial Hospital and released. She was on the Mission Bay beach with her parents when stung by the scorpion.

Mrs. Grant was putting a hooded sweatshirt on the little girl when the bite occured. It was surmized that the scorpion had been brought to the beach in the clothing.

Marjorie Adams Services Held

Private funeral services for Marjorie Adams, 68, of 3546 Bentley Pl., Spring Valley, were held at Greenwood Mortuary on Monday. Cremation followed. She died in a San Diego Hospital on Friday.

A native of Ohio, she had lived here 13 years. She was a member of the La Mesa Woman's Club.

Survivors include a sister, Mrs. Verda Adams of Spring Valley; two nephews, John Adams of Alexandria, Va., and Henry Adams of Washington, D. C.; and a niece, Mrs. Mildred Blanchard of San Diego.
